

CONNECT MORE

HPE Small Business Solutions for Small Office Deployment

How can on-premises and hybrid cloud small office deployment solutions help you connect?

- Enhance the customer experience with Wi-Fi access that attracts on-site visits, enables app-centric interactions, and empowers associates with information at their fingertips.
- Improve productivity with fast, secure Wi-Fi access and better application performance.

PROVIDE MORE OF WHAT CUSTOMERS WANT

Like any business, whether it is a single site or with multiple branches, you look for ways to connect more with your customers, so they keep coming back. That starts with offering fast Wi-Fi so customers can use their devices to stay connected while waiting or shopping. It may also include providing app-enabled on-site services, and connecting associates or providers with instant, secure access to data and files from mobile devices.

Sound complicated and costly? It doesn't have to be. HPE Small Business Solutions for Small Office Deployment are complete, validated solutions that include compute, storage, Wi-Fi access points (APs), networking, and services—eliminating the need to select, validate, configure, and size IT from scratch and making it easy to set up and manage. You can easily add storage

with optional HPE StoreEasy network attached storage, or HPE RDX Removable Disk Backup System.

These complete solution bundles bring together the performance, management, reliability, and security of HPE ProLiant Gen10 servers, powered by Intel® processors, with reliable, cost-efficient Aruba wireless Wi-Fi APs and wired networking with smart management tools, HPE StoreEasy storage or RDX Removable Disk Backup System, and the peace of mind of HPE Foundation Care.

Plus, HPE Small Business Solutions for Small Office Deployment can converge multiple functions—such as virtualization, storage, and backup—onto a single server, for a simple, secure, and affordable office-in-a-box IT solution.

In short, HPE Small Business Solutions for Small Office Deployment let you focus on connecting with customers—not IT.

Solution brief

Consume IT with predictability

You need affordable access to superior tech, but in a way that preserves cash and helps you be more efficient. [HPE Financial Services](#) makes it possible for you to consume IT, with low monthly payments via flexible subscription.

Easily evolve to hybrid cloud

The HPE Small Office Deployment solution can be easily extended a hybrid cloud with cloud services from Microsoft Azure or a managed service provider.

¹ HPE SMB Offers are regionally released as "Smart Buy Express Offers" in the U.S. and Canada, "Top Value Offers" in Europe, and "Intelligent Buy Offers" in Asia Pacific and Japan.

² Based on external security firm conducting cybersecurity penetration testing of HPE Gen10 servers and three leading server competitors, September 2019.
